

First International Conference on Organic Food Quality and Health Research

18 - 20 May, 2011

Diplomat Hotel Conference Centre • PRAGUE • CZECH REPUBLIC

PD Dr. Johannes Kahl

Prof. Dr. Jana Hajslova

Marco Schlüter

invite researchers in the field of organic food quality and health research, representatives of national and international agencies, control bodies and industries

to attend the **First International Conference on Organic Food Quality and Health Research.**

The Scientific Committee and the organizers of the conference aim to prepare a balanced program with many high grade presentations followed by stimulating discussions.

The Conference will focus on the State of the Art in Research on Organic Food Quality and Health in the following areas, reflecting topics of the **CONFERENCE SESSIONS:**

- Quality and safety of organic plant and animal products
- Impact of processing on organic quality and safety
- Standardization of novel methods
- Organic food authenticity
- Impact of organic food on animals
- Impact of organic food on humans
- Organic related health concepts

WORKSHOPS focused on following topics will be organised:

- Organic food quality concepts
- Quality challenges for organic food production chain in Africa, Asia and South-America
- In vitro (laboratory) tests on the health impact of organic food
- TPOrganics – Food quality and health research
- Dairy products - quality and health implications

Conference is organised under auspices of the Ministry of Agriculture of the Czech Republic.

SPONSORSHIP:

A number of commercial opportunities are available to promote your organization to the delegates at the conference. More information either for number of sponsorship packages or a range of specific sponsorships are available from the conference website.
